IVY&SEED COLLECTION

Seeds and warm light... the perfect combination to make Nature bloom is also the inspiration for Lladró's new lighting collection *Ivy&Seed*. A series of porcelain chandeliers harmonically combining elements of plants like bulbs, roots, leaves and petals.

The new *Ivy&Seed* collection gets off to a start with a wide range of models, sizes and colors that make it the most versatile in the Lladró catalogue, ideal to adapt to the tastes of individual clients as well as decorative contract projects. Available in models with 8, 16, 20 and 32 lights, these chandeliers come in five standard sizes, with the possibility to customize them by varying the height as well as the number and composition of the lights.

Lladró's *Belle de Nuit* lamps speak to us in a new language of porcelain and color. They give off a warm light thanks to the lithophanes as shades, engraved with different decorative motifs. The rest is down to the wealth of Lladró's palette of colors: from the most classic model in white to the fun multi-color version, *Belle de Nuit* lamps decorate, illuminate and, above all else, add that exclusive magical touch to your favourite rooms.

WINTER PALACE
COLLECTION

The *Winter Palace* chandeliers seem to be lifted directly from a fairytale castle, transforming the crystal into porcelain and the fabric of the lampshades into lithophanes.

When turning them on, the transparency of the porcelain brings out the patterns etched by hand on the surface and bathes us in a warm, welcoming light.

NATUROfantastic
COLLECTION

While seemingly opposites, organic and fantasy make the perfect couple. And the best example are the lamps in the *Naturofantastic* collection, ornamented with natural motifs born from the imagination of Lladró artists.

In black or white, inspired by the wealth of tropical coloring or with the complex technique of golden luster, there are different decorative versions as well as models that come with fabric or translucent porcelain lampshades. Cheerful lamps that remind us that fantasy is relevant to modern design.
