FIREFLY
COLLECTION

Cordless table lamps with rechargeable battery through USB and independent LED lighting.

The firefly's magical quality of emitting light is the inspiration for this collection, a series of cordless table lamps with chargeable batteries and independent LED lights. *Firefly* lamps come with porcelain lithophanes as shades, whose translucent quality allows a warm, intense light to filter through. These are perfect for indoor and outdoor spaces. Their original designs are inspired by vegetal patterns and decorated with attractive combinations of colors that update table lamps in the unique language of porcelain.

While seemingly opposites, organic and fantasy make the perfect couple. And the best example are the lamps in the *Naturofantastic collection*, ornamented with natural motifs born from the imagination of Lladró artists. In black or white, inspired by the wealth of tropical coloring or with the complex technique of golden luster, there are different decorative versions as well as models that come with fabric or translucent porcelain lampshades. Cheerful lamps that remind us that fantasy is relevant to modern design.
